

ACCOUNTS PAYABLE

Accounts Payable provides invoice and payment processing activities of your company. It is integrated with purchasing and accommodates all trade and non-trade transactions.

Accounts Payable Features

Effective Cash Management

Accounts Payable allows you to accomplish your payment obligations meet to your suppliers while enjoying the discounts and prepayment support that guarantees effective cash management.

Automated Invoice Processing

This module computes taxes, discounts, and currency conversions based on your specifications allowing you to benefit from your supplier's terms without disrupting the process.

Flexible Invoice Payment

Accounts payable displays the schedule of payment based on the created invoice. Here, you can also pay in partial or in full depending on your agreement with the supplier.

Integration with Purchasing Module

Accounts Payable is directly linked to Purchasing module allowing you to match the ordered items accurately.

Integration with Inventory Module

Accounts Payable is linked to Inventory module allowing you to match only the items received by the Inventory department.

Benefits of Accounts Payable

- Facilitates invoicing and matching
- Keeps track of payments
- Integrated with the Purchasing, cash management, and Inventory modules
