

Company Profile

Impart Solutions, Inc. is an international software and professional services organization focused on providing products, solutions and services in these areas.

1. Software as a Services (SaaS),
2. Services

Impart is committed to delivering innovation by collaborating with our clients to help them realize their vision. Each member of our management team has over twenty years of relevant business and industry experience. Our consultants have significant professional experience, and our development and support staff are proven teams.

Innovative, Results-Focused Solutions

From conceptualization of software and business systems strategy to implementation, we combine our industry knowledge with technology expertise to create solutions that bring real, tangible business value to our clients. We strive to increase business velocity, stay ahead of our client's needs and continue to be in front of the market with innovative solutions that deliver a rapid return on investment. Our clients view us as their partner because we deliver what we promise and are committed to their success.

Impart products and services help customers streamline their operations and focus on their core competencies. Impart is a proven resource for companies that need to significantly reduce capital investment in software, hardware, maintenance and energy costs.

Software as a Service (SaaS)

Impart provides two SaaS solutions, LAMP Enterprise and System Incident Reporting (SIR).

LAMP Enterprise is a state of the art SaaS solution that provides you with the best, easy to learn and easy to access ERP system. It covers all the requirements of a modern company engaged in services, manufacturing, or sales. It can be deployed quickly and companies can be productive with it immediately. Compared to traditional ERP, LAMP offers a significant reduction in your Total Cost of Ownership (TCO).

Impart offers System Incident Report (SIR) system, an online system that provides superior functionality to track, escalate, and repair issues from customers.

Services

Our services compliment both SaaS and outsourcing but can be delivered stand alone to organiza-

tions that are in need of specific answers.

Our engagement teams work with you and your team to develop capabilities that support your objectives. This is done collaboratively, not with turn-key solutions and “cookie-cutter” products. Our methodology and tools support a speedy time to delivery. We leverage our experience, and yours, to ensure a customized solution that meets your expectations.

Our Commitment

Impart Solutions is fully committed to the success of every customer initiative. Impart honors this commitment by creating products and providing services that bring sophisticated enterprise management essentials to companies at all market levels.
