

## GENERAL LEDGER

Having the right financial foundation for your organization is the key when you need to account for every penny that comes in or goes out—in every currency, in every country. LAMP's General Ledger can help you respond more quickly to your changing environment, streamline your financial operations, and improve the accuracy of your financial reporting.

### General Ledger Features

#### **Multi-Currency Support**

Provides the flexibility to transact in any currency. Foreign currencies are automatically converted to the base reporting currency based on the corresponding conversion rates.

#### **Budgeting**

Allows management to directly control expenses by providing encumbrance control per account specified for budgeting.

#### **Seamless Integration with Other Modules**

GL is directly integrated to other LAMP modules providing the facility to generate all your accounting entries for all your LAMP transactions.

#### **Flexible Chart of Accounts Structure**

The chart of accounts can be customized to best fit your company's needs providing you with the ability to grow with your business.

Facilitates your account structure with multiple, customizable account segments and it features an intuitive design on the assignment of parent and child accounts.

#### **Financial Consolidation and Reporting**

A one-stop-shop for all your accounting entries. Offers standard financial reports and allows consolidation of account balances.

#### **Adapt to Multiple Costing Standards**

Supports multiple costing and valuation methods providing LAMP with the ability to adapt to your current cost accounting requirements.

#### **Maintain Internal Controls**

The data integrity with GL transactions provides mandatory balance checks to prevent the occurrence of out-of-balance situations.
