

In today's information-driven society, it is vital that you have access to your enterprise data whenever and wherever you are.

Impart Solutions, Inc. developed LAMP Enterprise (LAMP), a Software as a Service (SaaS) driven Enterprise Resource Planning (ERP) solution that provides you with the competitive advantage needed to make your cut above the rest.

LAMP is developed for companies in need of an affordable ERP solution. It is rich with premier enterprise level features, costs a fraction of the price and can be implemented in less time than a traditional ERP solution. It covers a wide range of industries catering to their requirements using best practices.

LAMP offers a significant reduction in your Total Cost of Ownership (TCO) compared to other ERP systems.

- Production

Availability

Through the use of internet technologies, LAMP is engineered to be web-enabled with PDA support in order for it to work on any platform with a web browser. With the wide availability of internet through DSL, WiFi, and 3G wireless networks, LAMP applications becomes always available.

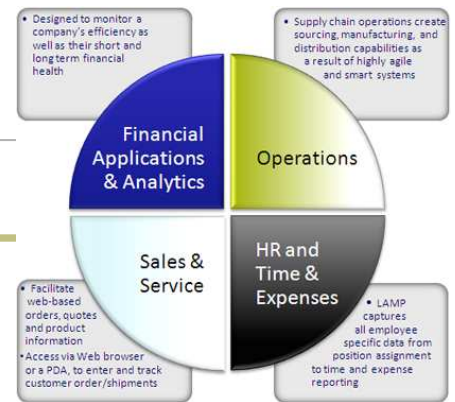

Through our PDA module, LAMP users can have access through blackberry, iPhone and Smart-Phone.

Ease of Use

End-users have become accustomed to web-browsing with the proliferation of the internet applications and the web. As a result, LAMP, as a web-enabled application, becomes easy to use by the community.

Cost Efficient

LAMP follows the Application Service Provider (ASP) model that drives down costs normally assumed by the consumer. With

LAMP, your enterprise application is hosted and maintained in a secure datacenter eliminating the need to invest a large amount on personnel, hardware, infrastructure, and maintenance for your applications.

Support Availability

Not only do you get software, you get a team of professionals to handle your questions, maintain the system, and perform your backups. It's like having your own IT department without all the costs associated with it.

Flexibility

LAMP can be configured precisely to match the needs of each customer eliminating the need for large information technology investments. Choosing from a full menu of LAMP-managed business functions, customers can integrate all of the available applications or simply implement their desired functions a la carte.

Our Commitment

Impart Solutions is fully committed to the success of every customer initiative. Impart honors this commitment by creating products and providing services that bring sophisticated enterprise management essentials to companies at all market levels.
